

**CITY OF OAKLAND SELECTS IMAGESOURCE TO PROVIDE
ENTERPRISE LEVEL ELECTRONIC DOCUMENT MANAGEMENT SYSTEM**

(OLYMPIA, WA December 12, 2005) ImageSource has been selected by the City of Oakland's Community & Economic Development Agency to provide an enterprise platform for managing documents related to the building services department. The enterprise system will include document capture, document management, records management, electronic forms library and universal content management. The \$2.8 million investment represents a major advance for the City's building services department.

The new system will replace the current manual system, provide 24-hour on-line access to information and forms, and interface with the County Assessor/Recorder databases for accurate ownership data. Using the system's self-service feature, constituents will be able to track the status of inspections, apply for land development and building permits, look up contracts and buildings plans as well as request and print official documents.

"We couldn't be more excited to start building Oakland's enterprise system with ImageSource," said Claudia Cappio, the City of Oakland's Development Director. "Throughout the rigorous procurement process ImageSource stood out as the company with the best technologies and a proven group of highly-skilled professionals. Their innovative approach will meet our immediate needs and remain flexible enough to meet our ongoing technical initiatives."

"ImageSource is very pleased to win this contract," stated Terry Sutherland, CEO of ImageSource, "We look forward to working with the City of Oakland to provide innovative solutions that, when combined with our commitment to excellence, are sure to deliver outstanding technology benefits to the City. Oakland residents are fortunate to have such a forward-thinking group of professionals working to make sure they deliver the best services to their community."

ImageSource will implement Kofax Ascent Capture, Stellent IBPM, Stellent UCM, Stellent Fixed Content Records Management and Verity Liquid Office software platforms to deliver a world class Electronic Document Management System.

"ImageSource's ability to utilize Stellent technologies to implement platforms that will meet customers' immediate needs and ongoing business and technology needs will lead to a very successful partnership for City of Oakland," states Greg Cooke, Vice President

of Channel Sales for of Stellent, Inc. “Over the last several years ImageSource has emerged as the preeminent integrator of Kofax and Stellent software in North America.”

“The City selected ImageSource as the vendor of choice for this project primarily because of its demonstrated ability to meet the technological requirements better than other vendors evaluated,” said Mohssen Yassini, Director of IT for CEDA. “ImageSource demonstrated a level of commitment and expertise that allowed key decision makers to move forward.”

About the City of Oakland

Founded in 1852, Oakland has grown to a vibrant city with a population of more than 409,000. It is one of the most ethnically diverse cities in the nation, with more than 100 languages and dialects spoken. Home to the nation’s 4th largest seaport, Oakland is a vital transportation hub with exceptional sea, air, rail and highway connections. Home to three professional sports teams, the city’s quality of life is also bolstered by a temperate climate, outstanding water- and land-based recreational opportunities and a diversified economy.
