

## **IMAGESOURCE HONORED AT CRESCENDO 2007 WITH PARTNER SUCCESS AWARDS**

**Olympia, WA, February 21, 2007** – ImageSource, a leading provider of content management solutions and professional services, announced today that the company has been honored with two prestigious awards from Oracle – Stellent, Inc. The two awards include The 2006 Largest Installed Base of Imaging and Business Process Management Products and 2006 Platinum Solution Provider.

“It’s a great honor to receive the Partner Success Awards,” said Terry Butler, Chief Solutions Officer for ImageSource, Inc. “I would like to thank our many Customer Partners who have entrusted ImageSource as their integrator for the Stellent IBPM product and those who continue to create more efficient business processes through the superior Stellent technologies.”

“I’d also like to thank our professional services groups who bring over 400 years of accumulative experience in information technology to our Customer Partners everyday. This combined experience, along with our Customer Partners dedication to their projects, is the reason we have so many successful installations globally,” concludes Butler.

Oracle – Stellent, Inc honored award recipients during a special ceremony at Crescendo 2007, the company’s fourth annual global user conference held February 5 - 8 in San Diego, California.

“This year’s Customer Success Award winners epitomize the outstanding value and rapid success Stellent solutions generate for organizations of all sizes and industries,” said Dan Ryan, chief operating officer for Oracle – Stellent, Inc. “Similarly, Partner Success Award winners exemplify outstanding commitment to leveraging and extending Stellent technology across numerous key markets. This year’s nomination pool was once again very deep for both award programs, making it difficult to narrow down the winner’s lists to a select few companies. We look forward to strengthening our relationships with this year’s award winners, as well as our entire customer and partner base, as we enter an exciting new phase of opportunity with Oracle.”

### **About ImageSource**
