

**IMAGESOURCE NAMED TO THE 2007 INC. 5,000
FASTEST-GROWING PRIVATE COMPANIES**

Olympia, August 27, 2007 —ImageSource, a leading provider of content management solutions and professional services, proudly announces that they have been honored on the first-ever Inc. 5,000 list of the fastest-growing private companies in the country.

The Inc. 5,000 is an extension of Inc. magazine's annual Inc. 500 list and ranks companies based on revenue growth for the last three years. ImageSource reported a sales growth of 46%.

"The Inc. 5,000 provides the most comprehensive look ever at the most important part of the economy — the entrepreneurial part," said Inc. 5,000 Project Manager Jim Melloan. "The expansion of the list has allowed us to tell the stories of larger companies, older companies, and a wealth of companies...that are underreported in the business media."

ImageSource contributes its growth in part to the development and deployment of the ILINX suite of software products. ILINX products provide integral components that extend the capabilities of Enterprise Content Management software and hardware.

"ImageSource is honored to be part of this prestigious list," said Terry Sutherland, Chief Executive Officer, ImageSource. "Choosing the right integrator is as essential as choosing the right technology. The growth we have experienced has been possible through our commitment to innovative solutions, best-in-breed technology, outstanding support services, and continuous customer referrals."

Document Management solutions are becoming a necessity as information and content continue to overwhelm organizations. Inc. 5000 has identified Information Technology as the third fastest-growing category in this year's list.
