# Leverage modern AI to simplify data capture from complex documents.

Hyperautomation isn't so hyper when your customer-oriented processes get bogged down extracting data from complex documents like applications, forms, invoices, loan files, claims, and more. The more complex the information, the more complex the deployment. Reliably extract the data you need, regardless of complexity or type, with ILINX Advanced Capture AI. Get to production in days, not months, without the traditional effort.

Faster time to value

AI lets you take back the time spent preparing documents to be processed and realize quicker ROI. ILINX Advanced Capture AI delivers dramatically faster configuration, deployment, and time to value. Even handwriting capture is easier and more accurate than ever.

Integrated workflow

Native integration with workflow means you can deploy ILINX Advanced Capture AI into any point in a process with less complexity. This allows you to leverage intelligent document automation anywhere you need it with less disruption to preexisting processes.

Quick content intelligence

ILINX Advanced Capture AI enables your organization to capture complex and unstructured document information faster and more accurately. Accelerate the process of getting content intelligence directly into the hands of the knowledge workers who need it.

Technical Highlights

1. AI automatically maps and configures data extraction for text and handwriting with high accuracy
2. Low-shot classification and separation requires a low number of samples
3. Optimizes and adapts through machine learning
4. Supports forms and semi-structured documents
5. Intuitive, no-code designer requires little training

A/P Automation

Reliably extract data from invoices, purchase orders, and remittances.

Revenue Cycle Management

Process and compare claims and EOBs to verify proper payment.

Commercial and Residential Lending

Easily classify and sort loan files and reliably extract and verify key data.

Process innovation made easy.

ImageSource makes process innovation easy through advanced solutions built on ILINX, the world's most flexible process-improvement platform, delivered by a team of experts committed to client-partner success.
